

Walk on the wild side Safely in 2008

We hope everyone had a wonderful holiday season! As we look ahead towards a brand new year, we cannot ignore the winds of change upon us. We are very excited about a new trend that if successful, could quite possibly change our world in countless untold ways. While certain police tactics recently being implemented could be perceived as questionable or even unfairly jeopardize businesses already struggling to stay afloat in today's unstable economy... we certainly understand their plight. Watching any news broadcast or reading any newspaper tells us the dangers of DUI on any given day, yet the facts are freaky-scary to learn exactly how many impaired drivers we continue to unknowingly share our roads with each and every time we leave our homes. It is unfortunate that such drastic measures had to be taken for folks to begin taking this matter seriously, but alas they finally are. We are proud of some local small business pioneers who realized such a simple plan and took action at their own risk, especially during such strained financial times. They have formed their own shuttle system that picks you up from home and brings you to their establishment, then drops you safely back home again. We absolutely love this idea and we'll certainly be following their progress to see if this catches on. We sure hope so, but meanwhile always remember to keep safety in mind whenever you feel like headin out for a walk on the wild side! You'll prevent a lot of headaches or even heartaches "down the road." As we bounce around a similar plan for Fibber McGee's, we are very interested in hearing your suggestions that could make this work most effectively; and thanks to our fantastic new website, staying in touch with us has never been easier! Just hop on-line to sync your calendar with our heavy hitting events that keep your tummy and your toes smiling the whole year through. Remember to make your reservations in advance to cozy up with your sweetheart for a romantic lunch or dinner on Valentine's Day which is already just around the corner! Hmm what to savor... a Black & Bleu Filet Mignon, Smothered Chicken or Pork Chops with snappy veggies & Mashers perhaps? Your choices are endless with our traditional favorites, or tantalizing new master pieces that Jose has been whipping up in the closet. Speaking of closets, tuck those sweaters away and break out your favorite T's for Spring's best awakening event in the valley! Jot down Sunday, March 9th to celebrate at our 13th Annual Anniversary Bash while Jackie Turner jams to all your favorite tunes beginning at 1:00 pm, and naturally the scrumptious feast is always on us this very special day! Hint Hint: This will be a terrific photo-op to debut onto our website so we can't wait to see your shining face there! At Fibber's St. Patrick's Day is our absolute busiest day of the year, each and every year, so thanks to all you whacky leprechauns out there in Fibberland for continuing to go green at the most magically delicious spot in town. We'll C U @ Fibber's!!!

Fib Blurbs

Thank you for your awesome feedback on our new website which has had thousands of hits since our last issue. Kewl. The "contact us" section has made it really easy to voice your kudos and quandaries but the photo gallery seems to be everybody's #1 favorite. Check out our most recent NFL outing to San Francisco in the Limbusine which are posted for your viewing pleasure and who knows?? Maybe we'll even give you a rare glimpse into the exclusive VIP employees-only party that takes place each and every New Year's Day. There's always something fun and new to check out so log on to www.fibbermcgeesfresno.com today!

Fresno lost a legendary icon this past summer and a very special relic has been added to our trophy case located in Fibber's foyer to pay tribute. For those not already in the know... good ole' Mr. McGee himself (aka Gary) has a tremendous amount of ancient history with the Old Fresno Hofbrau. Former owner Red Williams was personally responsible for the majority of adornments that once filled the historical building, most of which were auctioned off this summer before the building sadly, was demolished. Luckily he still has a soft spot for his former employee and generously donated an authentic beer stein for Fibber McGee's to display proudly. Although Red moved up north years ago, he's participated in our golf tournament many times and won it the past 2 years in a row! Great history continues to be made between these two ole' bar flies!

We will be glad when a single edition of the Closet Chronicles can go by without reporting the loss of yet more kind souls near and dear to Fibber's. Marvin Carey and Jerry Mastro will be missed by many. Our hearts go out to Myrna and Sandy. You are in our thoughts.

Shame on us! Chuck Becker is such a close friend, yet we have no sound of mind reason (since we lost ours!) to never have made the birthday list. Who cares that his birthday is in July... if ya know him, call him up today and wish him Happy Birthday! If he couldn't forgive us before, he'll really never forgive us now! **HAPPY BIRTHDAY CHUCKY BABY!!!** Speaking of B-days, Dennis Gregg was missed November 15!

Happy Birthday
